SUMMARY

A product manager focused on 0→1 product building and applied AI—solving problems by integrating AI rather than staying in one function. I define core problems, design scalable architectures, and drive delivery with a data- and efficiency-first mindset, focused on AI automation, decision optimization, and user-behavior design.

SKILLS

Product Strategy & Planning: 0→1 product design & execution, Product design, Figma, Product roadmap planning, Task management, Cross-functional collaboration

Data-Driven Decisions: Conversion-funnel analysis, A/B testing design, Data integration & analysis

AI Product Design: AI architecture planning, Automation design

Technical Fluency: API architecture, Front/back-end collaboration, Technical decision-making

Certifications: AWS Certified Cloud Practitioner, Google AI, TOEIC Gold

EXPERIENCE

Product Builder — CMoney

2025 — Present

AI product strategy | Automation | Fintech product optimization

- **Delivered finance-KOL brand-entry LPs solo (Vibe Coding):** No engineering resources needed—validated across two flagship authors: 3,100+ purchases, 940 net-new customers, 14–18% conversion, ~NT\$186M combined revenue; codified into an SOP so 4+ marketers/PMs ship independently in 1 day–1 week.
- **Stock-picking product web rebuild (PC→Web):** Rebuilt legacy desktop stock-picking products as web apps (futures in 3 weeks, long-term in 5); 50% fewer failures, 2x DAU; skill-ified the process to help 4 more PC→Web launches.
- **Investment App 0→1 planning & delivery:** Led 0→1 core feature design—full specs, Figma high-fidelity prototypes, AI prototyping with two RDs. H1 revenue NT\$18.1M, 96% monthly retention (top-3 author apps), 75% active-paying, WAU ~3x in two months (644→~2,000).
- **Accelerated company workflows with AI SaaS & automation:** Automated 40% of repetitive work across marketing, engineering, and product in two months (efficiency +85%); built agents (e.g., a community-manager Agent) saving teams 20–50 hours/month. ([Data-analytics automation](#) · [AI video & content generation](#) · [MediaPost auto-publishing](#) (–70%))
- **Led company-wide AI transformation & enablement:** Built 10+ company-service skills and provided AI consulting under the firm's Agent initiative, enabling 10+ non-engineer PMs/marketers; packaged deployment/database fundamentals into skills and docs.

SELECTED PROJECTS

GenInk — Human-AI Co-Creation Tool

2026

- Not AI replacing creativity but augmenting it—drawing on a national top-screenplay-award background to solve the high cost of rewriting long-form work whenever character settings change.

GobetGoal — Duolingo for Weight Loss

2025

- Tackled the boredom that makes weight-loss hard to sustain by using the Octalysis framework to drive intrinsic motivation and designing a gamified level system; led a 4-person team to ship 0→1 in two months with strong beta-user praise.
